

VANSH TOMAR

Greater Noida, Uttar Pradesh

+91-9536858436 itsvanshtomar@gmail.com Vansh Tomar

Professional Summary

Enthusiastic Front-End Developer and Data Analytics student pursuing **B.Tech in Computer Science (AIML)** at NIET, Greater Noida (Graduating 2027). Skilled in building user-friendly web applications, data visualization dashboards, and real-world software solutions. Experienced in **C++, Python, HTML, CSS, JavaScript, SQL** with strong problem-solving abilities. Participant in **Smart India Hackathon (SIH 2025)**, passionate about applying technology to solve impactful problems.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, C++, SQL, HTML5, CSS

Frameworks/Libraries: React.js, Next.js, Redux, Tailwind CSS, GoLang

Databases: MongoDB, MySQL

Tools/Platforms: Git, GitHub, Vercel, VS Code, AWS (basic), REST APIs

Key Projects

Real-Time Messenger App

Next.js, MongoDB, WebSockets, NextAuth

- Developed a secure messaging platform supporting **100+ concurrent users** with WebSocket-based real-time communication.
- Implemented JWT/NextAuth authentication, role-based access, and Prisma-optimized queries, reducing database overhead by **15%**.

ClickShop – E-commerce Platform

React.js, Tailwind CSS, JavaScript

- Architected a fully responsive UI featuring **dynamic cart, product filtering, and inventory updates in real time**.
- Accelerated page load time by **35%** using advanced code-splitting and lazy rendering techniques.

Weather Forecast App

HTML, CSS, JavaScript, OpenWeather API

- Created a responsive weather dashboard using Fetch API and location-based forecasting.
- Implemented geolocation-based weather updates using the Fetch API in JavaScript, dynamically updating UI components styled with CSS.

Education

Noida Institute Of Engineering And Technology, AKTU

2023 – 2027

B.Tech – Computer Science (AIML), CGPA: 8.2

Greter Noida, UP

vanasthali public school

2022 – 2023

Senior Secondary (XII), Percentage: 84%

Baraut(Baghpat), UP

Workshops & Technical Training

Data Structures & Algorithms Workshop

2025

College-Level Technical Workshop

NIET, Greater Noida

- Gained hands-on experience in **arrays, linked lists, stacks, queues, trees, and basic graph concepts**.
- Solved problem statements focused on **time and space complexity optimization**.

Java Programming Workshop

2024

College-Level Technical Workshop

NIET, Greater Noida

- Learned core Java concepts including **OOP principles, inheritance, polymorphism, and exception handling**.
- Built console-based applications to strengthen understanding of Java fundamentals.

C Programming Workshop

2023

College-Level Technical Workshop

NIET, Greater Noida

- Developed strong foundations in **procedural programming, pointers, memory management, and file handling**.
- Implemented logic-building programs using loops, arrays, and functions.

Certifications

DSA Masterclass – CodeHelp

Web Development Bootcamp – Udemy

OpenAI GPT-3 for Developers – Infosys Springboard
